

CLUB PARTICIPANT'S CODE OF CONDUCT

In order to ensure the best quality of basketball experience for everyone involved in the club, including officials, players, volunteers and visitors (including parents, friends or relatives), participants are required to abide by our internal set of rules or code of conduct as outlined below:

The club reserves the right to temporarily or permanently ban a club participant who does not respect these rules.

Below are the basic rules for participating as a player in all age groups:

1. Arrive on time (where possible).
2. No mobile phone use at any time during the session. If you require the use of a phone, please let an official of the club know in advance. This rule will be specially enforced to all players and officials and will be relaxed for other members.
3. If you have registered and paid and cannot attend a session, please let us know on the relevant Whatsapp group at least 24 hours before the session (Except for a valid medical reason).
4. Respect the coach and or any club official by not talking, laughing or communicating with signs with other players when the coach and or official talks.
5. Respect the coach and the team by following and putting in action the instructions of the coach to the best of the players' ability (for example, jogging when asked to sprint or shooting the ball when asked to hold the ball are not acceptable behaviour).
6. Always work as a team player: This concept refers to understanding the basic values of team work by welcoming and not excluding any other players both in a perceived social circumstance within the training session and during play.
 - By not swearing at any point.
 - By not laughing at any other players of the team at any time.

- By actively encouraging players that may be behind in certain aspects of the game or training session.
- By distracting other players with playful or unnecessary chatty attitude.

7. Abide by COVID 19 club rules.

We believe these rules are an essential requirement for quality, safe basketball training and the base for player improvement.

These will apply to all players equally (i.e. no player will be treated differently).
